Subject Re: Questions on CTI's AE request

Jose:

The document cited (received by TCEQ on 9/22/2006) in your text is the final cumulation of CTI's support for requesting/supporting an aquifer exemption. There was a request for additional information by David Murry in March 2007. The letter consisted of 3 items. **CTI sent a 3 page response** dated April 4, 2007 (I can fax this to you if you send me you fax number). - *Jose requested*

In regard to public participation for the aquifer exemption, there was the following:

- 1) Published newspaper notice of public meeting in the *Corsicana Daily Sun*, May 31, 2007 and June 7, 2007.
- 2) Public meeting was held in Corsicana on June 21, 2007 (Mr. Jose Torres was in attendance).
- 3) 2nd published newspaper notice (September 6, 2007) of aquifer exemption (application submitted on June 1, 2006 and opportunity for public comment-meeting and contested hearing.
- 4) Commissioner's agenda on February 13, 2008.
- 5) A Motion for Rehearing (MFR) letter was sent to persons on mailing list dated February 22, 2008.

TCEQ mailed individual notices to the adjacent land / mineral owners, and various government officials and agencies.

I can be reached at (512) 239-6891.

Fred

Mr. Ben, Mr. Fred:

TCEQ's letter requesting a non-substantial IJC program revision in

warrant the submittal of a revised report. We would also like to know if during the public participation process TCEQ mailed individual notices to residents and owners of properties located within the area to be exempted.

Your attention in this matter will be greatly appreciated. Sincerely,

Jose Eduardo Torres
